PLANNING COMMISSION ACTION AND DISPOSITION

Planner In Charge: Michelle Portier

Staff Recomm. (Abbr.): Deny the HDR (High Density Residential) designation because it does not meet any of the criteria for a plan amendment and is not consistent with surrounding development; retain the SP (Stream Protection) designation.

Staff Recomm. (Full):

Comments: SECTOR PLAN AMENDMENT REQUIREMENTS FROM GENERAL PLAN (May meet any one of these):

CHANGES OF CONDITIONS WARRANTING AMENDMENT OF THE LAND USE PLAN:

1. There have been no changes to conditions to warrant amending the sector plan to the HDR land use classification.

INTRODUCTION OF SIGNIFICANT NEW ROADS OR UTILITIES THAT WERE NOT ANTICIPATED IN THE PLAN AND MAKE DEVELOPMENT MORE FEASIBLE:

1. No new roads, transit stops, or additional utilities have been introduced in this area.

AN OBVIOUS OR SIGNIFICANT ERROR OR OMISSION IN THE PLAN:

1. There are no obvious or significant errors or omissions in the plan that would warrant a plan amendment to the HDR land use classification.

TRENDS IN DEVELOPMENT, POPULATION OR TRAFFIC THAT WARRANT RECONDISERATION OF THE ORIGINAL PLAN PROPOSAL:

1. There have been no changes to the development pattern or completion of public improvements that would warrant a plan amendment to the HDR land use classification.

2. There are apartment complexes to the west, but these were developed in the 1990s and the early 2000s. They are located across Third Creek and are not a part of the Marble City neighborhood. These complexes were built out at a density of 6.33 du/ac, 10.25 du/ac, and 12.93 du/ac. All of the complexes are accessed from entrances directly off of Sutherland Avenue.

3. The parcels to the west with the apartment complexes are designated as MDR (Medium Density Residential) in the Central City Sector Plan and the One Year Plan. MDR capped density at 24 du/ac in the city for the former zoning ordinance under which the complex to the west was developed. The applicant is requesting 40 du/ac, which is almost twice that of the density that was allowed in the MDR land use class.

OTHER CONSIDERATIONS:

1. The parcel does not meet all of the location criteria for the HDR land use class as specified in the Land Use Classification Table, which is utilized by both the One Year Plan and Central City Sector Plan.

2. The HDR land use classification is out of character with the existing subdivision.

State law regarding amendments of the general plan (which includes Sector Plan amendments) was changed with passage of Public Chapter 1150 by the Tennessee Legislature in 2008. The law now provides for two methods to amend the plan at TCA 13-3-304:

- The Planning Commission may initiate an amendment by adopting a resolution and certifying the amendment to the Legislative Body. Once approved by majority vote of the Legislative Body, the amendment is operative.

- The Legislative Body may also initiate an amendment and transmit the amendment to the Planning Commission. Once the Planning Commission has considered the proposed amendment and approved, not approved, or taken no action, the Legislative Body may approve the amendment by majority vote

and the amendment is operative.
