File Number: 12-G-15-RZ **Related File Number:**
Application Filed: 10/26/2015 **Date of Revision:**
Applicant: RUFUS H. SMITH & COMPANY

PROPERTY INFORMATION

General Location: Southeast side Lovell Rd., southwest of Thompson Rd.
Other Parcel Info.:
Tax ID Number: 104 126 **Jurisdiction:** County
Size of Tract: 2.52 acres
Accessibility: Access is via Lovell Rd., a minor arterial street with 20' of pavement width within 80' of right-of-way.

GENERAL LAND USE INFORMATION

Existing Land Use: Vacant land
Surrounding Land Use:
Proposed Use: Residential development **Density:** 5 du/ac
Sector Plan: Northwest County **Sector Plan Designation:** LDR
Growth Policy Plan: Planned Growth Area
Neighborhood Context: This area is developed with rural, low and medium density residential uses under A, RA and PR zoning.

ADDRESS/RIGHT-OF-WAY INFORMATION (where applicable)

Street: 1724 Lovell Rd

MPC ACTION AND DISPOSITION

Planner In Charge: Michael Brusseau

Staff Recomm. (Abbr.): RECOMMEND that County Commission APPROVE PR (Planned Residential) / TO (Technology Overlay) zoning at a density of up to 5 du/ac.

Staff Recomm. (Full): PR/TO zoning at the requested density is consistent with the sector plan designation and will allow uses compatible with the surrounding land uses and zoning pattern. The site is relatively flat with few environmental constraints, so is appropriate for development at the proposed maximum density permitted within the LDR density range. The request is a logical extension of PR zoning from the south, east and west.

Comments: REZONING REQUIREMENTS FROM ZONING ORDINANCES (must meet all of these):

THE PROPOSED AMENDMENT SHALL BE NECESSARY BECAUSE OF SUBSTANTIALLY CHANGED OR CHANGING CONDITIONS IN THE AREA AND DISTRICTS AFFECTED, OR IN THE CITY/COUNTY GENERALLY:

1. This site is accessed from Lovell Rd., a minor arterial street, and is adjacent to other residential developments and zoning at comparable densities.
2. The property is located in the Planned Growth Area on the Growth Policy Plan and is proposed for low density residential uses on the sector plan, consistent with the proposal.
3. The proposed low density residential zoning and development is compatible with the scale and intensity of the surrounding development and zoning pattern.
4. The site is appropriate to be developed under PR zoning at the requested density. The site does not have significant slope or other environmental constraints, and has access to a minor arterial street.
5. The PR zone requires use on review approval of a development plan by MPC prior to construction. This will provide the opportunity for staff to review the plan and address issues such as traffic circulation, lot layout, recreational amenities, drainage, types of units and other potential development concerns. It will also give the opportunity for public comment at the MPC meeting.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH THE INTENT AND PURPOSE OF THE APPLICABLE ZONING ORDINANCE:

1. PR zoning is intended to provide optional methods of land development which encourage more imaginative solutions to environmental design problems. Residential areas thus established would be characterized by a unified building and site development program, open space for recreation and provision for commercial, religious, educational and cultural facilities which are integrated with the total project by unified architectural and open space treatment.
2. Additionally, the zoning states that each development shall be compatible with the surrounding or adjacent zones. Such compatibility shall be determined by the Planning Commission by review of development plans. Staff maintains that PR is the most appropriate zone for this development.
3. The TO (Technology Overlay) is established to provide for physical development review in the Tennessee Technology Corridor area of Knox County by TTCDA. The TO zoning overlay will remain on the subject property, meaning that future proposals may be subject to TTCDA approval of a Certificate of Appropriateness.

THE PROPOSED AMENDMENT SHALL NOT ADVERSELY AFFECT ANY OTHER PART OF THE COUNTY, NOR SHALL ANY DIRECT OR INDIRECT ADVERSE EFFECTS RESULT FROM SUCH AMENDMENT:

1. At the requested density of up to 5 du/ac on the 2.52 acres reported, up to 12 dwelling units could be proposed for the site. If developed with the proposed, detached residential units, this would add approximately 147 trips to the street system and about 6 children to the school system.
2. If more than 75 dwelling units are proposed on an overall development plan, a traffic study will be required to be submitted with the use on review/concept development plan.
3. PR zoning at the recommended density is compatible with surrounding development and should have a minimal impact on adjacent properties.

4. The approval of this request will allow the applicant to submit a development plan with up to 12 dwelling units for MPC's consideration.
5. Public water and sanitary sewer utilities are available to serve the site.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH AND NOT IN CONFLICT WITH THE GENERAL PLAN OF KNOXVILLE AND KNOX COUNTY, INCLUDING ANY OF ITS ELEMENTS, MAJOR ROAD PLAN, LAND USE PLAN, COMMUNITY FACILITIES PLAN, AND OTHERS:

1. The Northwest County Sector Plan proposes low density residential uses for this property, consistent with the requested PR zoning at up to 5 du/ac.
2. The site is located within the Planned Growth Area on the Knoxville-Knox County-Farragut Growth Policy Plan map.
3. Approval of this request could lead to future requests for PR zoning, consistent with the sector plan's low density residential proposal for the area.
4. Because of the property's location within the TO (Technology Overlay), the TTCDA will need to approve a Certificate of Appropriateness for this rezoning from the TTCDA. This request is scheduled to be considered by TTCDA on Mon., December 7, 2015 (12-F-15-TOR).

Upon final approval of the rezoning, the developer will be required to submit a development plan for MPC consideration of use on review approval prior to the property's development. The plan will show the property's proposed development, landscaping and street network and will also identify the types of residential units that may be constructed. Grading and drainage plans may also be required at this stage, if deemed necessary by Knox County Engineering and MPC staff.

Action: Approved **Meeting Date:** 12/10/2015

Details of Action:

Summary of Action: Recommend the Knox County Commission approve PR (Planned Residential) / TO (Technology Overlay) zoning at a density up to 5 dwelling units per acre.
