## **MPC ACTION AND DISPOSITION**

Planner In Charge:

Ken Pruitt

Staff Recomm. (Abbr.):

APPROVE PR (Planned Residential) zoning.  
APPROVE 1 to 5 dwellings per acre

Staff Recomm. (Full):

PR zoning at 1 to 5 du/ac. is consistent with other residential zoning and development found in the area. The sector plan proposes low density residential uses for the area.

Comments:

The applicant is proposing to develop low density residential uses on this site. The requested zoning density is the maximum that may be permitted under the LDR sector plan designation.

### NEED AND JUSTIFICATION FOR THE PROPOSAL

1. The surrounding area has been developed with residential densities above and below the recommended 1 to 5 du/ac. The development of the subject property will be compatible with other residential developments in the surrounding area that include single family subdivisions and older, large lot residential.
2. This zoning change will permit less intensive residential uses than surrounding RB zoning, and more compatible than uses permitted by the existing CA zoning on part of this site. The PR zone will allow the subject property to be developed in a manner consistent with the established residential development pattern in the surrounding area.

### THE EFFECTS OF THE PROPOSAL

1. Public water and sewer utilities are available to the site for new development.
2. The maximum allowable number of units that could be developed under the requested density is 28 units. This number of units would generate approximately 280 additional vehicle trips per day for the street system, and approximately 3 school-aged children could be added to the school system.
3. The PR zoning will allow MPC to consider a development plan for the property prior to any development taking place. Potential impacts to adjacent properties may be addressed at that time.

### CONFORMITY OF THE PROPOSAL TO ADOPTED PLANS

1. This requested zoning and density are consistent with the North County Sector Plan.
2. The proposed rezoning is consistent with previous rezonings in the area, and more undeveloped properties could be requested for residential rezonings in the future.
3. The PR zone allows MPC and the general public to review a site plan prior to the property's development. This will afford the applicant an opportunity to address any issues and concerns that may be related to development of the site.
