

CASE SUMMARY

APPLICATION TYPE: SUBDIVISION

CONCEPT PLAN

File Number: 2-SE-25-C Related File Number: 2-G-25-DP
Application Filed: 12/30/2024 Date of Revision:
Applicant: JUSTIN BREINER

PROPERTY INFORMATION

General Location: South side of Black Rd, east of N Campbell Station Rd
Other Parcel Info.:
Tax ID Number: 130 05805 Jurisdiction: County
Size of Tract: 8.39 acres
Accessibility: Access is via Black Rd, a minor collector street with a pavement width of 18 ft within a 60-ft right-of-way.

GENERAL LAND USE INFORMATION

Existing Land Use: Rural Residential, Agriculture/Forestry/Vacant Land
Surrounding Land Use: North: Single family residential, rural residential - PR (Planned Residential) up to 1 and 2.99 du/ac
South: Single family residential, multifamily residential, rural residential - PR (Planned Residential) up to 3 and 4 du/ac, A (Agricultural)
East: Agriculture/forestry/vacant, transportation/communications/utilities (First Utility District infrastructure) - A (Agricultural)
West: Agriculture/forestry/vacant, single family residential - A (Agricultural)
Proposed Use: Revision of Black Ridge Pointe subdivision (Unit 2) for up to 24 dwelling units Density: 2.96
Planning Sector: Northwest County Plan Designation: RC (Rural Conservation), HP (Hillside Ridgetop Protection)
Growth Policy Plan: Rural Area
Neighborhood Context:

PLAN INFORMATION (where applicable)

Current Plan Category: N/A (Within City Limits)

Requested Plan Category:

SUBDIVISION INFORMATION (where applicable)

Subdivision Name: Black Ridge Pointe subdivision

No. of Lots Proposed: 23 No. of Lots Approved: 0

Variances Requested: VARIANCE:

1. Reduce the minimum vertical curve (crest) K value from 25 to 20 at PVI STA 1+12.00 on public road 'A'.

ALTERNATIVE DESIGN STANDARD REQUIRING PLANNING COMMISSION APPROVAL:

1. Reduce the street frontage of lots 8, 13, and 14 from 25 ft to 20 ft.

ALTERNATIVE DESIGN STANDARDS REQUIRING KNOX COUNTY ENGINEERING AND PUBLIC WORKS APPROVAL (PLANNING

COMMISSION APPROVAL NOT REQUIRED):

1. Increase the maximum road grade from 1% to 2% at the intersection of road 'A' and Black Road.

2. Reduce the minimum right-of-way width of public road 'A' from 50 ft to 40 ft.

3. Reduce the pavement width of road 'A' from 26 ft to 22 ft as shown on the concept plan (approximately between Station 0+00 and 5+00).

S/D Name Change:

OTHER INFORMATION (where applicable)

Other Bus./Ord. Amend.:

PLANNING COMMISSION ACTION AND DISPOSITION

Planner In Charge: Samiul Haque

Staff Recomm. (Abbr.): Approve the variance to reduce the K value of Road A from 25 to 20 at PVI station 1+12.00, based on the following evidence of hardships.

A. This property slopes down by approximately 62 ft from the edge of Black Road to the rear boundary. There is a 28.8-ft elevation change along the right-of-way of Road A from its intersection at Black Road to the approximate middle of Road A at station 4+00.

B. The topography is unique to the property. Approval of this variance will result in less disturbance within the HP area designated on this property.

C. Approval of the variance is not anticipated to be detrimental to public safety, health, or welfare as there are no apparent sight distance issues on Black Road and no through connectivity via Road A.

Approve the requested alternative design standard to reduce the street frontage of the lots identified since the development meets the applicable requirements of Article 3.03.B.2 of the Subdivision Regulations and it is supported by Knox County Engineering and Public Works.

Approve the concept plan subject to 9 conditions.

Staff Recomm. (Full):

1. During the design plan phase, obtaining approval of Knox County Engineering & Public Works Department for the proposed location of the mail kiosk.
2. During the design plan phase, ensuring that any required sight distance easement is provided for the horizontal curve of Road A approximately between station 3+00 and station 5+50, subject to review and approval by Knox County Engineering & Public Works Department.
3. Ensuring connection to sanitary sewer and meeting any other relevant utility provider requirements.
4. Providing street names that are consistent with the Uniform Street Naming and Addressing System within Knox County (County Ord. 91-1-102).
5. Meeting all applicable requirements of the Knox County Zoning Ordinance.
6. Meeting all applicable requirements of the Knox County Department of Engineering and Public Works, including, but not limited to, ensuring that the stormwater retention pond(s) meet all requirements.
7. Before certification of the final plat for the subdivision, establishing a property owners association or other legal entity responsible for maintaining common facilities, such as common areas, amenities, private roads, and/or stormwater drainage systems.
8. Ensuring that land disturbance within the Hillside Protection (HP) area does not exceed 6.3 acres, as recommended by the slope analysis (attached). The limit of disturbance is to be verified and delineated on the site with high-visibility fencing before grading permits are issued for the site.

Undergrowth in the undisturbed HP areas may be cleared for passive recreational uses, such as walking trails. Selective tree removal is permissible for the removal of invasive species or to alleviate safety hazards, such as trees that are falling, dead, or dying.

9. If during design plan approval or construction of the development, it is discovered that unforeseen off-site improvements within the right-of-way are necessary, the developer will either enter into a memorandum of understanding (MOU) with the County for these improvements or reimburse the County for their direct expenses (if completed by County crews) to make corrections deemed necessary.

Comments:

This application is a revision of the recently approved concept plan (12-SD-24-C) and development plan (12-E-24-DP) for unit 2 of the Black Ridge Pointe subdivision. The primary difference between the current plan and the approved plan is the right-of-way width and pavement width of public road 'A'.

Unit 1 of the subdivision included 6 lots for single family houses and was approved by the Planning Commission in March 2024 (3-SA-24-C, 3-B-24-DP). Unit 2 proposes to subdivide lot 7 of the Unit 1, comprising 8.39-acres, into 22 lots for attached dwellings, 1 lot for the existing house and accessory structures, and 3 common areas, yielding a density of 2.74 du/ac for Unit 2. The overall density of the subdivision is 2.96 du/ac.

VARIANCE

Vertical curves of a street are designed based on the Rate of Vertical Curvature, K, referred to as K value. K value expresses the abruptness of the grade change in a single value. For subdivisions in Knox County, section 3.04.I.4.b of the Subdivision Regulations requires a minimum K value of 25 for local streets. The property is relatively steep at the location of the variance request, which makes it challenging to meet the requirement for Road A. Staff recommends approval of the variance because this will result in less grading within the HP (Hillside Protection) area and the decrease is supported by the Knox County Department of Engineering and Public Works based on the justification provided by the applicant.

ALTERNATIVE DESIGN STANDARD

An alternative design standard is requested to reduce the street frontage of lots 8, 13, and 14 from 25 ft to 20 ft. The Planning Commission may approve a reduction of the lot frontage subject to the following requirements (Sub Reg 3.03.B.2) - all lots shall have a minimum front yard setback of 20 ft and guest parking shall be provided throughout the development. The subject lots meet the minimum front setback requirements and on-street parking can be accommodated on the wider portion of road 'A'. On-street parking is more appropriate for this development compared to any off-street parking areas that will require additional disturbance within the HP area.

Action:

Approved with Conditions

Meeting Date: 2/13/2025

Details of Action:

Summary of Action:

Approve the variance to reduce the K value of Road A from 25 to 20 at PVI station 1+12.00, based on the following evidence of hardships.

A. This property slopes down by approximately 62 ft from the edge of Black Road to the rear boundary. There is a 28.8-ft elevation change along the right-of-way of Road A from its intersection at Black Road to the approximate middle of Road A at station 4+00.

B. The topography is unique to the property. Approval of this variance will result in less disturbance within the HP area designated on this property.

C. Approval of the variance is not anticipated to be detrimental to public safety, health, or welfare as there are no apparent sight distance issues on Black Road and no through connectivity via Road A.

Approve the requested alternative design standard to reduce the street frontage of the lots identified since the development meets the applicable requirements of Article 3.03.B.2 of the Subdivision Regulations and it is supported by Knox County Engineering and Public Works.

Approve the concept plan subject to 9 conditions.
