MPC ACTION AND DISPOSITION

Planner In Charge: Mike Reynolds

Staff Recomm. (Abbr.): APPROVE the development plan for up to 22 detached residential units on individual lots, subject to 1 condition.

Staff Recomm. (Full): 1. Meeting all applicable requirements of the Knoxville Zoning Ordinance.

With the conditions noted, this plan meets the requirements for approval in the RP-1 district and the other criteria for approval of a use-on-review.

Comments: The applicant is proposing to develop a project containing 22 detached dwellings on individual lots on this 6.46 acre site. The site was zoned RP-1 (Planned Residential) in 1973 but does not have a maximum density. Based on the fact that the site is shown for low density residential use on the Knoxville One Year Plan and sector plan, a plan for up to 6 units per acre could be submitted for review. The proposed development density of this project is 3.4 du/ac.

In 1995 and 2007 MPC approved a development plan for this site that was 40+ attached units. MPC's approval was overturned by the Knoxville City Council both times because area residents objections based on concerns regarding neighborhood compatibility and the condition of Murray Dr. Staff believes that the current plan is more inline with the concerns previously expressed and since the site is located at the intersection of two collector streets and it is located within approximately 1500' of Clinton Highway, the use of this site for low density housing is appropriate.

EFFECT OF THE PROPOSAL ON THE SUBJECT PROPERTY, SURROUNDING PROPERTY AND THE COMMUNITY AS A WHOLE

1. The proposed subdivision will have minimal impact on local utility services.
2. Any school age children living in this development are presently zoned to attend Norwood Elementary, Northwest Middle, and Powell High Schools.
3. The proposed residential development is consistent in use and density with the zoning and community facilities in the area. The predominant use in the area is detached single family dwellings.
4. The proposed detached residential subdivision density is 3.4 du/ac.

CONFORMITY OF THE PROPOSAL TO CRITERIA ESTABLISHED BY THE KNOXVILLE ZONING ORDINANCE

1. With the recommended conditions, the proposed residential development meets the standards of the RP-1(Planned Residential) Zone and all other requirements of the Zoning Ordinance.
2. The proposed development is consistent with the general standards for uses permitted on review: The proposed development is consistent with the adopted plans and policies of the One Year Plan and Sector Plan. The use is in harmony with the general purpose and intent of the Zoning Ordinance. The use is compatible with the character of the neighborhood where it is proposed. The use will not significantly injure the value of adjacent property. The use will not draw additional non-residential traffic through residential areas since the project is located on collector streets.

CONFORMITY OF THE PROPOSAL TO ADOPTED PLANS

1. The One Year Plan and Sector Plan identify this property for low density residential use with a maximum density of 6 du/ac. The proposed development density of 3.4 dwellings per acre is within the development density permitted by the One Year Plan and Sector Plan.

Action: Approved

Meeting Date: 6/9/2016

Details of Action: 1. Meeting all applicable requirements of the Knoxville Zoning Ordinance.

With the conditions noted, this plan meets the requirements for approval in the RP-1 district and the other criteria for approval of a use-on-review.

Summary of Action: APPROVE the development plan for up to 22 detached residential units on individual lots, subject to 1

condition.
