Staff Recomm. (Full):

1. Meeting all applicable requirements of the City of Knoxville Department of Engineering.
2. Certification on the final plat by the applicant's engineer that there is 300' of sight distance in both directions on Murray Dr. at the intersection with the access to this project as required in section 62-88 of the Subdivision Regulations.
3. Place a note on the final plat that all lots will have access to the internal street system only.
4. Prior to recording the final plat, establish a homeowners association for the purpose of assessing fees for the maintenance of the stormwater drainage facilities and all other commonly held assets.
5. Connection to sanitary sewer and meeting all other applicable requirements of the Knox County Health Dept.
6. Provision of street names which are consistent with the Uniform Street Naming and Addressing System within Knoxville (Ord. 0-280-90).

The landscape screening is to be approved by MPC staff before design plan approval by City Engineering.
8. MPC staff review and approval of school bus stop location, improvements and accessibility before design plan approval by City Engineering, if school bus stop amenity provided.
