Requested Plan Category:

SUBDIVISION INFORMATION (where applicable)

Subdivision Name: Palmer Subdivision

No. of Lots Proposed: 5 No. of Lots Approved: 5

Variances Requested: 1. Intersection right-of-way radius variance at the southwest corner of the intersection of Road A and Hardin Valley Rd., from 75' to 0'.
2. Maximum street grade variance on Road A, from 12% to 12.5%.

S/D Name Change:

OTHER INFORMATION (where applicable)

Other Bus./Ord. Amend.:

MPC ACTION AND DISPOSITION

Planner In Charge: Tom Brechko

Staff Recomm. (Abbr.): APPROVE variances 1 & 2 because the site's topography restricts compliance with the Subdivision Regulations & the applicant does not control the adjoining property at the proposed street intersection.

APPROVE the Concept Plan subject to 10 conditions.

Staff Recomm. (Full):

1. Connection to sanitary sewer and meeting any other relevant requirements of the Knox County Health Department.
2. Provision of a street name which is consistent with the Uniform Street Naming and Addressing System within Knox County (Ord 91-1-102).
3. Installing the street and driveway improvements recommended in the Traffic Impact Study prepared by John Gould of CDM Smith and approved by the Knox County Department of Engineering and Public Works and Planning Commission Staff for this development. The improvements shall be installed to the standards approved by the Knox County Department of Engineering and Public Works.
4. A third party engineering inspection to certify that the proposed public street was built to Knox County specifications.
5. Meeting all applicable requirements of the Knox County Department of Engineering and Public Works.
6. Placing a note on the final plat that access to Hardin Valley Rd. is restricted to the two access points (public street and shared driveway) identified on the Concept Plan.
7. Proposed development of the lots that are zoned PC (Planned Commercial) is subject to a Use on Review approval by the Planning Commission. Proposed development within the TO (Technology Overlay) district is subject to review and approval by the Tennessee Technology Corridor Development Authority.
8. Prior to certification of the final plat for the subdivision, establishing a property owners association that will be responsible for maintenance of the stormwater facilities.
9. Any grading within the 100' Tennessee Valley Authority (TVA) transmission line easement is subject to review and approval by TVA.
10. A final plat application based on this concept plan will not be accepted for review by the MPC until certification of design plan approval has been submitted to the MPC staff.

With the conditions noted, this plan meets the requirements for approval of a Concept Plan.

Comments: The applicant is proposing to subdivide this 23.3 acre tract into 5 lots for development under the PC (Planned Commercial) / TO (Technology Overlay) & OB (Office, Medical, and Related Services) / TO zoning districts. Access to the commercial subdivision will be by a public street on the western side of the property, and a shared access driveway located on the eastern side of the property. The public street will provide access for the three frontage lots along Hardin Valley Rd. and the two lots that do not front on Hardin Valley Rd.

The Planning Commission had previously approved a concept plan for this site on November 12, 2015 (10-SE-15-C) and February 11, 2016 (2-SB-16-C). The applicant has submitted this revised concept plan to request approval of the change of the JPE serving the subdivision to a public street.

A traffic impact study was submitted for the proposed subdivision. The study has recommended the addition of right turn lanes on Hardin Valley Rd., and left and right turn lanes exiting the site.

Action: Approved

Meeting Date: 6/8/2017

Details of Action:

Summary of Action: APPROVE variances 1 & 2 because the site's topography restricts compliance with the Subdivision Regulations & the applicant does not control the adjoining property at the proposed street intersection. APPROVE the Concept Plan subject to 10 conditions.
