MPC ACTION AND DISPOSITION

Planner In Charge: Dan Kelly
Staff Recomm. (Abbr.): APPROVE variance 1 because the site's topography restricts compliance with the Subdivision Regulations, and the proposed variances will not create a traffic hazard

APPROVE the concept plan subject to 9 conditions
Staff Recomm. (Full):
1. Connection to sanitary sewer and meeting any other relevant requirements of the Knox County Health Department.
2. Provision of a street name which is consistent with the Uniform Street Naming and Addressing System within Knox County (91-1-102)
3. Meeting all applicable requirements of the Knox County Dept. of Engineering and Public Works
4. The applicant widening George Light Rd. from the entrance to the development to the intersection with Rather Rd. to a minimum width of 20'. The widening is to be done with the approval of and under the supervision of the Knox County Dept. of Engineering and Public Works.
5. Prior to certification of the final plat for the subdivision, establishing a property owners association for the purpose of maintaining the storm water drainage system.
6. Certification on the final plat by the applicant's engineer that there is 300' of sight distance at the proposed subdivision entrance at George Light Rd.
7. Place a note on the final plat that all lots will have access from the internal road system only
8. Note on the plan the required 25 from center line minimum right-of-way dedication on Rather and George Light Roads.
9. A final plat based on this concept plan will not be accepted for review by MPC until certification of design plan has been submitted to MPC staff
Comments: The applicant has presented a concept plan for 59 lots on this 12.95 acre site. On April 16, 2007 the Knox County Commission approved the rezoning of this site to PR (Planned Residential) at 5 du/ac. The proposed development will consist of 59 attached residential units. Development of this site with attached dwellings allows the density to be concentrated outside the area of steepest slopes on the property.

EFFECT OF THE PROPOSAL ON THE SUBJECT PROPERTY, SURROUNDING PROPERTY AND THE COMMUNITY AS A WHOLE

1. The proposed subdivision will have minimal impact on local services since water and sewer will be provided to this site.
2. The proposed attached residential subdivision at a density of 4.56 du/ac, is consistent in use and density with the approved zoning of the property.
3. Any school age children living in this development are presently zoned to attend Hardin Valley Elementary School, Karns Middle School and Karns High School.

CONFORMITY OF THE PROPOSAL TO CRITERIA ESTABLISHED BY THE KNOX COUNTY ZONING ORDINANCE

1. The proposed attached residential subdivision meets the standards for development within a PR Zone and all other requirements of the Zoning Ordinance with the recommended conditions.
2. The proposed residential development is consistent with the general standards for uses permitted on review:
 - A. The proposed development is consistent with the adopted plans and policies of the General Plan and Sector Plan. The Northwest County Sector Plan proposes this site for low density residential use which may permit a maximum density of 5 dwellings per acre. The overall development density of the

proposed development is 4.56 dwellings per acre.

B. The use is in harmony with the general purpose and intent of the Zoning Ordinance. The proposed development complies with all the height, bulk and area requirements of the Knox County Zoning Ordinance. The proposed development meets all the requirements of the PR (Planned Residential District).

C. The use is compatible with the character of the neighborhood where it is proposed. As previously noted, the proposed development is compatible in use and intensity of development with the surrounding area.

D. The use will not significantly injure the value of adjacent property.

E. The use will not draw additional non-residential traffic through residential areas. This is a low density residential development within an area designated for low density residential use. The traffic generated from this project will be similar to the traffic that is generated by other residential developments.

CONFORMITY OF THE PROPOSAL TO ADOPTED PLANS

1. The Northwest County Sector Plan designates this property for low density residential use. The PR zoning approved for the property allows consideration of up to 5.0 du/ac. The proposed subdivision with its distribution of density on the site and overall density of 4.56 du/ac is consistent with the Sector Plan and the proposed zoning designation.

2. The site is located within the Planned Growth Area on the Knoxville-Knox County-Farragut Growth Policy Plan map.

MPC Action: Approved

MPC Meeting Date: 9/13/2007

Details of MPC action:

1. Connection to sanitary sewer and meeting any other relevant requirements of the Knox County Health Department.
2. Provision of a street name which is consistent with the Uniform Street Naming and Addressing System within Knox County (91-1-102)
3. Meeting all applicable requirements of the Knox County Dept. of Engineering and Public Works
4. The applicant widening George Light Rd. from the entrance to the development to the intersection with Rather Rd. to a minimum width of 20'. The widening is to be done with the approval of and under the supervision of the Knox County Dept. of Engineering and Public Works.
5. Prior to certification of the final plat for the subdivision, establishing a property owners association for the purpose of maintaining the storm water drainage system.
6. Certification on the final plat by the applicant's engineer that there is 300' of sight distance at the proposed subdivision entrance at George Light Rd.
7. Place a note on the final plat that all lots will have access from the internal road system only
8. Note on the plan the required 25 from center line minimum right-of-way dedication on Rather and George Light Roads.
9. A final plat based on this concept plan will not be accepted for review by MPC until certification of design plan has been submitted to MPC staff

Summary of MPC action:

APPROVE variance 1 because the site's topography restricts compliance with the Subdivision Regulations, and the proposed variances will not create a traffic hazard

APPROVE the concept plan subject to 9 conditions
