**MPC ACTION AND DISPOSITION**

**Planner In Charge:** Michael Brusseau

**Staff Recomm. (Abbr.):** RECOMMEND that County Commission APPROVE PR (Planned Residential) zoning at a density of up to 1 du/ac.

**Staff Recomm. (Full):** PR zoning at the recommended density is consistent with the sector plan and Growth Policy Plan and is compatible with surrounding development and zoning. Under PR zoning, a development plan would be have to be reviewed and approved by MPC as a use on review.

**Comments:** REZONING REQUIREMENTS FROM ZONING ORDINANCES (must meet all of these):  
THE PROPOSED AMENDMENT SHALL BE NECESSARY BECAUSE OF SUBSTANTIALLY CHANGED OR CHANGING CONDITIONS IN THE AREA AND DISTRICTS AFFECTED, OR IN THE CITY/COUNTY GENERALLY:  
1. The property is located in the Rural Area on the Growth Policy Plan and is proposed for agricultural/rural residential uses on the sector plan, consistent with the recommended zoning and density.  
2. PR zoning allows the property to be developed with up to 7 dwelling units, which is consistent in overall density from the current zoning. However, the PR zoning allows lot sizes of less than 1 acre. The current agricultural zoning would likely yield slightly less than 7 lots, once legal access to the lots is established.  
4. The PR zone requires use on review approval of a development plan by MPC prior to construction. This will provide the opportunity for staff to review the plan and address issues such as traffic circulation, lot layout, recreational amenities, drainage, types of units and other potential development concerns. It will also give the opportunity for public comment at the MPC meeting.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH THE INTENT AND PURPOSE OF THE APPLICABLE ZONING ORDINANCE:  
1. PR zoning is intended to provide optional methods of land development which encourage more imaginative solutions to environmental design problems. Residential areas thus established would be characterized by a unified building and site development program, open space for recreation and provision for commercial, religious, educational and cultural facilities which are integrated with the total project by unified architectural and open space treatment.  
2. Additionally, the zoning states that each development shall be compatible with the surrounding or adjacent zones. Such compatibility shall be determined by the Planning Commission by review of development plans. Staff maintains that PR is the most appropriate zone for this development.

THE PROPOSED AMENDMENT SHALL NOT ADVERSELY AFFECT ANY OTHER PART OF THE COUNTY, NOR SHALL ANY DIRECT OR INDIRECT ADVERSE EFFECTS RESULT FROM SUCH AMENDMENT:  
1. At the requested density of up to 1 du/ac on the 7.08 acres reported, up to 7 dwelling units could be proposed for the site. Developed with detached residential units, this would add approximately 90 trips to the street system and about 3 children to the school system.  
2. PR zoning at the recommended density is compatible with surrounding development and should have a minimal impact on adjacent properties.  
3. Public water is available to serve the site. Sanitary sewer is not currently available at the site and would have to be extended, if needed, to serve the development.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH AND NOT IN CONFLICT WITH THE GENERAL PLAN OF KNOXVILLE AND KNOX COUNTY, INCLUDING ANY OF ITS ELEMENTS, MAJOR ROAD PLAN, LAND USE PLAN, COMMUNITY FACILITIES PLAN, AND OTHERS:  
1. The South County Sector Plan proposes agricultural/rural residential uses for this property, which allows consideration of a density of up to 1 du/ac, which is what the applicant is requesting.  
2. The site is located within the Rural Area on the Knoxville-Knox County-Farragut Growth Policy Plan map. Within the Rural Area, PR zoning density is limited to a maximum density 1 du/ac.

3. Approval of this request could lead to future requests for PR zoning in this area.

Upon final approval of the rezoning, the developer will be required to submit a development plan for MPC consideration of use on review approval prior to the property's development. The plan will show the property's proposed development, landscaping and street network and will also identify the types of residential units that may be constructed. Grading and drainage plans may also be required at this stage, if deemed necessary by Knox County Engineering and MPC staff.
