

SUBDIVISION INFORMATION (where applicable)

Subdivision Name: Kinleys Canyon Subdivision
Surveyor: Robert G. Campbell and Associates
No. of Lots Proposed: 72 **No. of Lots Approved:** 0
Variances Requested:
1. Horizontal curve variance from 250' to 200' at sta32+00 of Road B
2. Reverse curve tangent from 50' to 0' at sta 12+89 of Road A
3. Broken back curve tangent variance from 150' to 125.48' at sta 17+00 of Road A
S/D Name Change:

OTHER INFORMATION (where applicable)

Other Bus./Ord. Amend.:

MPC ACTION AND DISPOSITION

Planner In Charge: Dan Kelly
Staff Recomm. (Abbr.): APPROVE variances 1-3 because the site's topography and location restricts compliance with the Subdivision Regulations, and the proposed variances will not create a traffic hazard.

APPROVE the concept plan subject to 8 conditions
Staff Recomm. (Full):
1. Connection to sanitary sewer and meeting any other relevant requirements of the Knox County Health Department.
2. Prior to approval of the final plat provide a letter from KUB stating that sewer capacity has been reserved for this development
3. Provision of street names which are consistent with the Uniform Street Naming and Addressing System within Knox County (91-1-102)
4. Meeting all applicable requirements of the Knox County Dept. of Engineering and Public Works
5. Meeting all requirements and obtaining all required permits from the Tenn. Dept. of Environment and Conservation and the U.S. Army Corp of Engineers
6. Prior to certification of the final plat for the subdivision, establishing a homeowners association for the purpose of maintaining the stormwater drainage system and any other commonly held assets
7. A final plat based on this concept plan will not be accepted for review by MPC until certification of design plan has been submitted to MPC staff
8. Meeting all requirements of the approved use on review development plan

Comments: The applicant is proposing to subdivide this 26.2 acre site into 72 lots. The site was rezoned in August 2006 to PR (Planned Residential) at up to 3 dwellings per acre.

The preliminary drainage plan submitted with this plan provides sufficient detail for the consideration of the Concept Plan. At the Concept Plan level, the applicant provides the locations of the proposed detention basins and a general plan as to how the storm water will be directed to the detention facilities. The detailed drainage plan comes under the purview of the Knox County Dept. of Engineering and Public Works. The detailed grading and drainage plan will be submitted to the County Engineer as part of the Design Plan process which is the next step in the subdivision review process if this concept plan is approved.

EFFECT OF THE PROPOSAL ON THE SUBJECT PROPERTY, SURROUNDING PROPERTY AND THE COMMUNITY AS A WHOLE

1. The proposed subdivision will have minimal impact on local services since water and sewer will be provided to this site.
2. The proposed detached residential subdivision at a density of 2.79 du/ac, is consistent in use and density with the approved zoning of the property.
3. Any school age children living in this development are presently zoned to attend Corryton Elementary School, Holston Middle School and Gibbs High School.

CONFORMITY OF THE PROPOSAL TO CRITERIA ESTABLISHED BY THE KNOX COUNTY ZONING ORDINANCE

1. The proposed detached residential subdivision meets the standards for development within a PR Zone and all other requirements of the Zoning Ordinance with the recommended conditions.
2. The proposed residential development is consistent with the general standards for uses permitted on review:

- A. The proposed development is consistent with the adopted plans and policies of the General Plan and Sector Plan. The Northeast County Sector Plan proposes this site for low density residential use with a maximum density of 5 dwellings per acre. The overall development density of the proposed development is 2.79 dwellings per acre.
- B. The use is in harmony with the general purpose and intent of the Zoning Ordinance. The proposed development complies with all the height, bulk and area requirements of the Knox County Zoning Ordinance. The proposed development meets all the requirements of the PR (Planned Residential) District).
- C. The use is compatible with the character of the neighborhood where it is proposed. As previously noted, the proposed development is compatible in use and intensity of development with the surrounding area.
- D. The use will not significantly injure the value of adjacent property.
- E. The use will not draw additional non-residential traffic through residential areas. This is a low density residential development within an area designated for low density residential use. The traffic generated from this project will be similar to the traffic that is generated by other residential developments.

CONFORMITY OF THE PROPOSAL TO ADOPTED PLANS

- 1. The Northeast County Sector Plan designates this property for low density residential use. The PR zoning approved for the property allows consideration of up to 3.0 du/ac . The proposed subdivision with its distribution of density on the site and overall density of 2.79 du/ac is consistent with the Sector Plan and the proposed zoning designation.
- 2. The site is located within the Rural Area on the Knoxville-Knox County-Farragut Growth Policy Plan map.

MPC Action: Approved **MPC Meeting Date:** 9/14/2006

- Details of MPC action:**
- 1. Connection to sanitary sewer and meeting any other relevant requirements of the Knox County Health Department.
 - 2. Prior to approval of the final plat provide a letter from KUB stating that sewer capacity has been reserved for this development
 - 3. Provision of street names which are consistent with the Uniform Street Naming and Addressing System within Knox County (91-1-102)
 - 4. Meeting all applicable requirements of the Knox County Dept. of Engineering and Public Works
 - 5. Meeting all requirements and obtaining all required permits from the Tenn. Dept. of Environment and Conservation and the U.S. Army Corp of Engineers
 - 6. Prior to certification of the final plat for the subdivision, establishing a homeowners association for the purpose of maintaining the stormwater drainage system and any other commonly held assets
 - 7. A final plat based on this concept plan will not be accepted for review by MPC until certification of design plan has been submitted to MPC staff
 - 8. Meeting all requirements of the approved use on review development plan

Summary of MPC action: APPROVE variances 1-3 because the site's topography and location restricts compliance with the Subdivision Regulations, and the proposed variances will not create a traffic hazard.
