Required Communications

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication With Those Charged With Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the financial statement audit as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial reporting process.

Area	Comments
<p>Our Responsibilities With Regard to the Financial Statement Audit</p>	<p>Our responsibilities under auditing standards generally accepted in the United States of America and <i>Government Auditing Standards</i>, issued by the Comptroller General of the United States, have been described to you in our contract dated May 4, 2018. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities which are also described in that letter</p>
<p>Overview of the Planned Scope and Timing of the Financial Statement Audit</p>	<p>We have issued a separate communication regarding the planned scope and timing of our audit and have discussed with you our identification of and planned audit response to significant risks of material misstatement.</p>
<p>Accounting Policies and Practices</p>	<p>Preferability of Accounting Policies and Practices</p> <p>Under generally accepted accounting principles, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice.</p> <p>Adoption of, or Change in, Accounting Policies</p> <p>Management has the ultimate responsibility for the appropriateness of the accounting policies used by the System. The System did not adopt any significant new accounting policies, nor have there been any changes in existing significant accounting policies during the current period.</p> <p>Significant or Unusual Transactions</p> <p>We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.</p> <p>Management's Judgments and Accounting Estimates</p> <p>Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached Exhibit A - Summary of Significant Accounting Estimates.</p> <p>Audit Adjustments</p> <p>There were no audit adjustments made to the original trial balance presented to us to begin our audit.</p>

Significant Written Communications Between Management and Our Firm	A draft copy of the representation letter provided to us by management is attached as Exhibit B.

EXHIBIT A - Summary of Significant Accounting Estimates

Year Ended June 30, 2018

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in the System's June 30, 2018 financial statements.

Estimate	Accounting Policy	Management's Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Depreciation of Capital Assets	Depreciation is calculated using the straight-line method.	Estimated depreciable lives are based upon prior experience and use of the asset.	We have reviewed the estimated useful lives used by management and compared them to industry standards for similar assets.
